Throughout antiquity, women have served as Daoist priests, teachers, and healers. Demonstrating the mutual relationship of yin and yang, women were considered and treated as equal to men. Their contributions weave an invaluable source of knowledge into the heart of Daoism and Chinese Medicine. In this class, Jeffrey Yuen, an 88th generation Daoist Priest of the Jade Purity Tradition, will highlight some of the most influential women of Daoist history who have made the greatest impact on Chinese Medicine. Special emphasis will be placed on the contributions of Sun Bu’Er via her text the “Secret Book of the Inner Elixir”, and on Lady Wei Huacun who is credited as the founder of the Shang Qing sect of Daoism.
